ADMISSIONS

Walter Anderson is a partner at HWG LLP, where he helps companies investigate and resolve their most challenging disputes.

For nearly two decades, Walter has helped some of the world's most prominent companies address and resolve complex, high-stakes, and novel disputes with private and government entities. With every matter, Walter partners with his clients to understand, not only the dynamics of the individual disputes, but also the nuances of their industry and business operations. This partnership allows Walter to seek resolutions that are in his client's best interest, whether that means early settlement or aggressive litigation through trial and appeal. His representative experience includes:

- Resolving a nine-figure dispute for a Fortune 50 company that would have been among its largest litigation matters in history.
- Winning complete victory for an entertainment company after a nine-day federal jury trial, then successfully fending off an appeal.
- Obtaining favorable settlements for a state government in a long-running dispute other lawyers had deemed unwinnable.
- Defending technology and telecom companies in federal agency enforcement actions, including one of the largest enforcement actions in FCC history;
- Achieving complete victory on behalf of a submarine cable company in the early stages of a federal court litigation;
- Successfully challenging FCC regulations in the D.C. Circuit Court of Appeals.
- Convincing government entities not to bring criminal charges or civil cases against a finance company after the Great Financial Crisis; and
